Ethics – Effects on behaviour

Food, exercise and sleep

- Data and advice on lifestyle cannot be too demanding or intrusive

Communities

- Social support needs to be fun instead of controlling/authoritative

Microtransactions

- Cannot be promoted too much nor become addictive

REVA

myfitnesspal

SOCIAL SUPPORT

Close social support from **multiple people** from familiar **social circle** and other **communities**

Close social support from one familiar buddy only

Community only in the shape of a public forum

SUPPORT LENGTH

Long-term community building and changing habits

Program finishes after 12 weeks

Program is mainly focused on individual development

KEEPING IT FUN

Acknowledgement by peers, receiving **rewards** for achieving goals and helping others, receiving **discounts** at partners

Gamification through 'progress game'

No explicit fun element, mainly focused on usability and strength of analyses

ACCESSIBILITY

Easily usable by individuals, their friends, larger communities and employers

Seems hard to download and use for individual users, focused on employers

Usable by any individual, but integration or collaboration in/with seems not possible

PRICE

Free use of the app, in-app purchases **premium content**, **subscription** model for communities

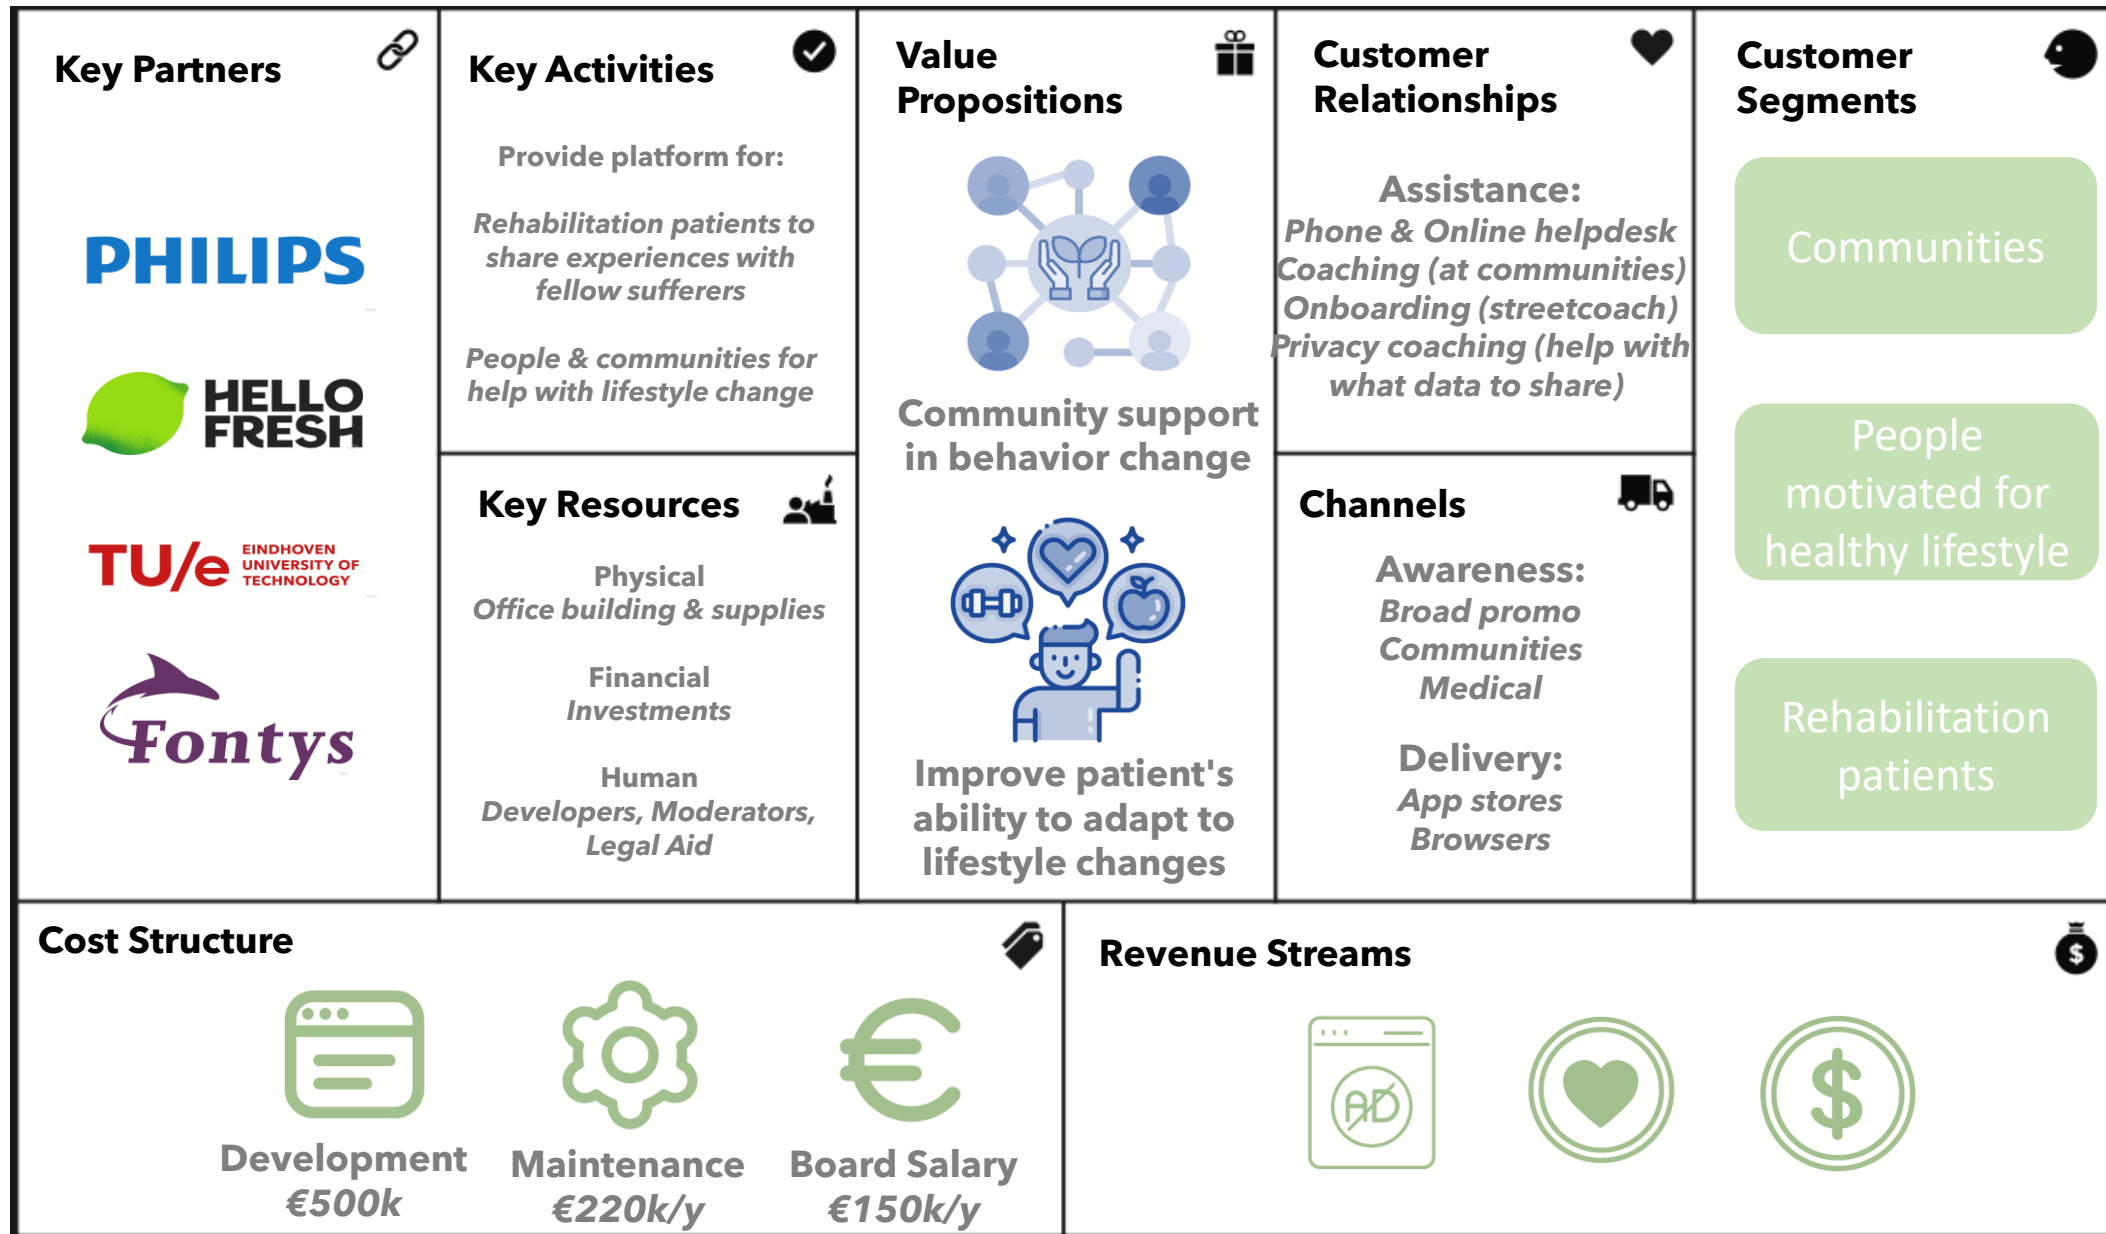

€390 p/duo or €225 single
Organisation:
€332 or €195 p/duo excl. VTA
